

Donald Trump & Eric Hovde

Hatred & Division & Fear & Lies.

ENOUGH.

Donald Trump brags about killing *Roe v. Wade*. Eric Hovde wanted it overturned too.¹ Here in Wisconsin, that meant women were treated like it was 1849. Now, Trump and Hovde want to take power in Washington.

With Project 2025 on the horizon, abortion could be banned across the country, even where protections have been put in place, and states could monitor pregnancies.²
